To whom it may concern,

Thank you for taking the time to learn more about me by viewing my website and resume. I am currently looking for a Summer 2014 internship where I can grow and advance my design skills and knowledge of the professional world and my industry.

After completing three years of Visual Communication Technology education with a Marketing minor at Bowling Green State University, I have a strong knowledge of the technical and creative skills required to be successful in the work force. Along with my years of schooling, my three past internships have helped me through the transition from a student into a professional. More information about education, internships, and other activities can be found below on my resume.

I look forward to hearing from you about a job opportunity. My contact information can be found to the left or below on my resume.

Sincerely,

Victoria Myers
